# TONG HA

Louisville, KY | 346-219-1755 | haquoctong59@gmail.com | github.com/KevinHa59 | linkedin.com/in/tong-ha | tongha.tech

## SUMMARY

My name is Tong Ha, a graduate student with Bachelor of Computer Science degree with a passion in Software Development. Strong knowledge in ReactJS, Redux, OOP, Hibernate, Spring Boot, Relational Database. Experienced team leader skilled in Java and MySQL.

## SKILL

| | |
|---|---|
| **Front-end**: | React JS, HTML5, CSS3, JavaScript, Redux, Axios, Bootstrap, Material UI. |
| **Back-end**: | Java, J2EE, Spring, Spring Boot, Spring data JPA, Spring JDBC, Spring Security, Basic Nodejs |
| **Webservice**: | REST, REST API |
| **Database**: | MySQL, SQL Server, Basic MongoDB |
| **SDLC:** | Agile |
| **Version Control**: | Git |
| **IDE**: | IntelliJ IDEA, Visual Studio Code, Microsoft SQL Server, MySQL Workbench |
| **OS**: | Windows |
| **Language**: | Vietnamese (Native Speaker), English (Speaking, Reading, Writing, Listening) |

## EDUCATION

**University of Houston-Downtown**, Houston, TX                    JANUARY 2020 - DECEMBER 2021
**Major**: Computer Science
**GPA**: 3.94
**Honors**: Dean's List, 3 semesters
**Relevant Coursework**: Software Engineering, Database Systems, Digital Logic, Object-Oriented Programming, Intro to Theory of Computation, Web Programming, Programming Language Concepts, Operating Systems, Data and Information Structures, IoT, Natural Language Processing.

**Houston Community College**, Houston, TX
**Major**: Computer Science, Information Technology
**GPA**: 3.24
**Honors**: Dean's List, 3 semesters - Honor's List, 3 semesters
**Relevant Coursework**: Computer Application I, Programming Fundamental I, II, and III, Computer Organization.

## RELEVANT PROJECTS

JANUARY 2020 – MAY 2020

*Team Leader*, **School Management Project** – **University of Houston-Downtown**, Houston, TX

- Collaborated with a group of 5 to the design and stimulate application's UI, functions, database, and report for a desktop application delivering University services where professors and students manage their courses.
- Utilized Java, Spring Boot, React JS, HTML5, CSS3, JavaScript, Redux, MySQL, and GIT.

AUGUST 2020 – DECEMBER 2020

*Independent*, **Binary Search Tree Visualization Project** – **University of Houston-Downtown**, Houston, TX

- Design a desktop app visualizing how a binary search tree work with several functions such as Add Node, Search Node, Remove Node, Find Lowest Common Ancestor.
- Utilized Java, JavaFX, CSS.

## EXPERIENCE

**DiCENTRAL LTD** – *Vietnam*

**Frontend Intern**

- Business process analysis and problem solving of data quality and maintenance issues, including system development and user-interface.
- Develop UIs with HTML, CSS, JavaScript.
- Extensively involved in coding with ReactJS to add functionalities and effects to UI.
- Utilized React JS, HTML, CSS, JavaScript, GIT.
